# About Us

---

GTR Academy is a leading healthcare education and training institute dedicated to advancing medical excellence through its prestigious Fellowship Programme. We are committed to empowering doctors and healthcare professionals with advanced clinical knowledge, practical skills, and globally relevant competencies required in today's evolving healthcare landscape.

Our Fellowship Programme is thoughtfully designed by experienced clinicians and academic experts to bridge the gap between theoretical learning and real-world medical practice. With a strong focus on evidence-based medicine, hands-on clinical exposure, and patient-centered care, we ensure that our participants gain the confidence and expertise needed to manage diverse clinical situations effectively.

At GTR Academy, we follow a blended learning approach that combines online mentoring, live interactive sessions, and practical training exposure.

Our flexible structure supports working professionals while maintaining high academic standards and professional integrity.

Through our strong collaborations with reputed academic bodies and industry partners, we aim to deliver globally aligned education standards and strengthen healthcare delivery by nurturing competent, skilled, and compassionate medical professionals.

# Why Choose GTR Academy?

The Fellowship in Dermatology offered by GTR Academy is structured to help healthcare professionals develop advanced expertise in diagnosing and treating conditions affecting the skin, hair, and nails. The program curriculum encompasses a broad spectrum of disorders, including atopic dermatitis, alopecia areata, psoriasis, vitiligo, acne, and various forms of skin cancer

This Fellowship in Dermatology in India also trains participants to recognize early dermatological manifestations of systemic diseases, facilitating timely diagnosis and better patient care. Alongside comprehensive theoretical instruction, the program includes clinical training to enhance real-world diagnostic accuracy and therapeutic skills.

- › Global Recognition and Accreditation
- › Industry-Driven Curriculum
- › Affordable and Flexible Learning
- › Expert Faculty and Mentorship
- › Clinical observer ship with Leading Hospitals
- › Hassle Free Admissions
- › Easy EMI Options Available
- › Career Advancement Opportunities
- › Success Stories and Testimonials

## Outcomes After One Year of Fellowship

Upon successful completion of the program, participants will be able to:

- Analyze and interpret histopathological findings and effectively correlate them with clinical presentations, particularly in dermatopathology-focused cases.
- Provide holistic, patient-centered care tailored to diverse population groups.
- Integrate advanced technologies and innovative treatment modalities into practice while staying updated with emerging trends in dermatology.
- Engage in academic and research activities, including conducting studies, publishing in peer-reviewed journals, and presenting at professional conferences, thereby contributing to the advancement of dermatological science

# Key Features

## First-Hand Clinical Training

Gain practical exposure in real-world clinical settings through hands-on training at multi-specialty hospitals, enabling direct involvement in frontline patient care.

## Hybrid Learning Model

Flexible learning schedules designed for working professionals, with expert-curated resources that comprehensively cover essential clinical knowledge.

## Global Recognition

Accredited by organizations such as eIntegrity, CPD, NHS, and more, ensuring international acceptance and credibility.

## Expert Medical Faculty

Learn from experienced and accomplished Family Medicine clinicians through interactive and case-based sessions.

# What Our Clients Says

"The Fellowship Program completely transformed my professional journey. The mentorship, practical learning, and real-world exposure helped me gain confidence and clarity in my career path."

**Dr. Rohan Mehta**

"Unlike other programs, this fellowship focuses on real industry skills. The hands-on projects and expert guidance made learning practical and impactful."

**Dr. Priya Sharma**

"After completing the fellowship, I saw significant growth in my skills and job opportunities. It truly gave my career the boost I was looking for."

**Dr. Neha Gupta**

"This program not only enhanced my knowledge but also connected me with like-minded professionals. The networking opportunities were incredible."

**Dr. Karan Singh**

Before joining this program, I was unsure about insulin regimens and complications management. Now I can confidently treat Type 2 diabetes, adjust medications, and counsel patients properly. Great mentorship and structured curriculum.

**Dr. Manoj Kumar**

The real patient case discussions and treatment planning sessions were extremely useful. I was able to implement what I learned immediately in my practice. Highly recommended for doctors who want specialization in diabetes care.

**Dr. Nisha Ray**

# Course Description

---

Dermatology is a specialized branch of medicine dedicated to diagnosing and managing disorders of the skin, hair, and nails. As the body's largest organ, the skin not only protects against infections and environmental damage but also plays a vital role in an individual's confidence and overall well-being.

An Online Fellowship in Dermatology provides physicians with comprehensive training to effectively manage a wide spectrum of dermatological conditions, supporting both the physical and emotional health of patients. It also strengthens their ability to identify early cutaneous signs of systemic illnesses, enabling prompt intervention and improved long-term outcomes.

A Fellowship in Dermatology after MBBS allows medical graduates to refine advanced clinical competencies, gain in-depth knowledge of dermatological disorders, and establish a rewarding career in a rapidly evolving specialty that integrates medical, surgical, and aesthetic practices.

# Curriculum

## Module 1 : Introduction of Dermatology

- Encryption
- Dermoscopy
- Regional Variations of Psoriasis
- Management of Widespread Psoriasis with Conventional Systemic Agents
- Biological Drugs in Psoriasis
- Exacerbating Factors in Atopic Eczema
- Emollient Therapy in AD
- Topical Steroids and Calcineurin Inhibitors
- Treatment of Vitiligo
- Leg Ulcers
- Adult lymphoedema

## Module 2 : Inflammatory Dermatoses

- Skin rash
- Seborrhoeic Dermatitis
- Venous Eczema
- Discoid Eczema
- Pompholyx
- Asteatotic Eczema
- Nodular Prurigo
- Lichen Simplex
- Lichen Planus
- Annular Erythemas
- Erythroderma
- Pregnancy Dermatoses

## Module 3 : Dermatopathology

- Histopathology and Laboratory Processes
- Taking the Right Biopsy
- Histopathology Techniques
- Disorders of Collagen and Elastic Tissue
- Granulomatous Inflammation
- Lichenoid and Interface Dermatoses
- Cutaneous Deposits
- Adnexal Sebaceous Lesions
- Malignant Sweat Glands

## Module 4: Paediatric Dermatology

- Neonatal Rashes
- Congenital Melanocytic Naevi
- Capillary Malformation
- Infantile Haemangioma (Strawberry Mark)
- Venous Malformations and Their Management in Children
- Childhood Lymphatic Disorders
- Infantile Seborrhoeic Dermatitis
- Eczema Herpeticum
- Phytodermatitis
- Viral Exanthemas
- Viral Exanthemas and Kawasaki Disease
- Staphylococcal Scalded Skin Syndrome (SSSS)
- Head Lice
- Infantile Psoriasis
- Facial Lumps and Bumps: Pilomatixoma
- A Cutaneous Lump in a Child

## Module 5: Dermatological surgery

- Local Anaesthesia
- Suturing Skills
- Cautery and Electrosurgery

## Module 6: Systemic diseases

- Systemic Lupus Erythematosus
- Antiphospholipid Syndrome
- CREST
- Morphoea
- Skin Manifestations of Rheumatoid Disease
- Perniosis
- Cutaneous Vasculitis I: Small Vessel Vasculitides
- Cutaneous Vasculitis II: Small and Medium Vessel Vasculitides and Obstructive Vasculopathy

## Module 7: Bullous disorders

- Pemphigus
- Linear IgA Bullous Dermatitis
- Bullous Pemphigoid

## Module 8: Hair and nail disorders

- Diffuse Hair Loss
- Localised Alopecia
- Nail Disorders
- Scarring Hair Loss

## **Module 9 : Sebaceous and Sweat Gland Disorders**

- Axillary Hyperhidrosis
- Acne
- Rosacea and Perioral Dermatitis

## **Module : 10 Cutaneous allergy**

- Patch testing technique and interpretation
- A beautician with facial dermatitis
- Dermatitis in a leg ulcer patient
- Occupational dermatitis
- Baseline patch test series
- Plant dermatitis

## **Module 11: Genetics**

- Glossary of Genetic Terms
- Relevant Epidermal Structures
- Using Genetic Family Histories in Dermatological Practice
- The Genetic Ichthyoses
- Diffuse Keratoderma
- The Moving Rash
- Scanty Hair
- Blistering on the Hands and Feet
- A Child with Photosensitivity and Blistering

## **Module 12: Photodermatology**

- Sunlight and Human Exposure
- Vitamin D in Health and Disease
- The Minimal Erythema Dose and its Uses
- Phototesting Using the Irradiation Monochromator
- A Florid Rash During Phototherapy

- Not All that Itches is Eczema
- Scarring Eruption
- Sunburn - Or Is It?
- Porphyria
- Photosensitivity in Childhood

## **Module 13: Genito-urinary Medicine**

- Sexual History
- Diagnosing Gonorrhoea
- Gonorrhoea: Natural History and Management
- Disseminated Gonorrhoea
- Chlamydia Trachomatis: Natural History and Management
- Early infectious Syphilis
- Diagnosis and Management of Late Syphilis

## **Module 14: Genital Disorders**

- Male Genital Examination
- Candida and Yeast Infections
- History and Examination - Female
- Lichen Planus - Female
- Lichen Sclerosus - Female
- Genital Lumps
- Cervical Intra-epithelial Neoplasia (CIN)
- Vulval Intraepithelial Neoplasia (VIN), Penile Intraepithelial Neoplasia (PeIN) and Vagina Intraepithelial Neoplasia (VAIN)
- HIV Related Malignancy
- Other Infectious Conditions Affecting The Male Genitalia
- Other Infectious Conditions Affecting The Female Genitalia
- Bullous Disorders of the Genitalia
- Non-infective Genital Ulceration
- Genital Oedema
- Localized Vulval Pain

- Trichomonas Vaginalis
- Bacterial Vaginosis
- Recurrent Bacterial Vaginosis
- Infective Causes of Balanitis
- Infective Causes of Vulvitis
- Genital Herpes
- Initial and Recurrent HSV
- Herpes infections in HIV · Anogenital Warts
- LGV, Chancroid and Donovanosis
- Scabies and Pediculosis Pubis

## **Module 15: Skin infections**

- Staphylococcal Related Skin Disorders
- Leprosy
- Lyme Disease
- Subcutaneous Mycoses and Other Mycoses
- Infectious Blisters
- Cutaneous Leishmaniasis
- Dermatological Presentations of COVID-19

## **Module 16: Skin Cancer**

- Diffuse Pigmented Naevi
- Actinic Keratosis and Bowen's Disease
- Cysts
- Clinical Variants of Melanoma
- Management of Melanoma
- Basal Cell Carcinoma
- Squamous Cell Carcinoma
- Paget's Disease of the Nipple and Extra-mammary Paget's Disease
- Angiosarcoma
- Cutaneous T-cell lymphoma and B cell lymphoma

## Module 17: Psychodermatology

- Dermatitis Artefacta
- Delusions of Parasitosis
- Introduction to Psychosocial Management in Dermatology
- Psychosocial Assessment in Dermatology Practice
- Psychological Interventions for Dermatology Patients

## Module 18: Topical Therapy

- Topical Corticosteroids and Appropriate Use in Dermatology
- Vitamin D Analogues
- Topical Antifungal Agents
- Cytotoxics and Imiquimod

# Who is eligible to apply for this fellowship in Dermatology ?

The program is typically open to:

- ✓ MBBS Graduates.
- ✓ MBBS Final Years Student
- ✓ Applicants who are in their final year can also apply.
- ✓ MD/DNB/FNB & residents working in healthcare.
- ✓ BAMS / BHMS / Ayush / BYNS /BUMS
