About Us

GTR Academy is a leading healthcare education and training institute dedicated to advancing medical excellence through its prestigious Fellowship Programme. We are committed to empowering doctors and healthcare professionals with advanced clinical knowledge, practical skills, and globally relevant competencies required in today's evolving healthcare landscape.

Our Fellowship Programme is thoughtfully designed by experienced clinicians and academic experts to bridge the gap between theoretical learning and real-world medical practice. With a strong focus on evidence-based medicine, hands-on clinical exposure, and patient-centered care, we ensure that our participants gain the confidence and expertise needed to manage diverse clinical situations effectively.

At GTR Academy, we follow a blended learning approach that combines online mentoring, live interactive sessions, and practical training exposure.

Our flexible structure supports working professionals while maintaining high academic standards and professional integrity.

Through our strong collaborations with reputed academic bodies and industry partners, we aim to deliver globally aligned education standards and strengthen healthcare delivery by nurturing competent, skilled, and compassionate medical professionals.

Why Choose GTR Academy?

GTR Academy Medical is a leading online learning platform offering a well-structured Fellowship in Family Medicine that seamlessly integrates theoretical learning with practical exposure. The program is designed to help doctors master core medical concepts while gaining hands-on clinical experience in a multi-specialty hospital, under the mentorship of experienced clinical experts.

All GTR Academy Medical fellowship programs are curated by distinguished physicians with extensive clinical experience across India. Their guidance enables learners to develop the clinical competence, professional attributes, and confidence required to build a successful and fulfilling medical career.

What Our Clients Says

"The Fellowship Program completely transformed my professional journey. The mentorship, practical learning, and real-world exposure helped me gain confidence and clarity in my career path."

Dr. Rohan Mehta

"Unlike other programs, this fellowship focuses on real industry skills. The hands-on projects and expert guidance made learning practical and impactful."

Dr. Priya Sharma

"After completing the fellowship, I saw significant growth in my skills and job opportunities. It truly gave my career the boost I was looking for."

Dr. Neha Gupta

"This program not only enhanced my knowledge but also connected me with like-minded professionals. The networking opportunities were incredible."

Dr. Karan Singh

Before joining this program, I was unsure about insulin regimens and complications management. Now I can confidently treat Type 2 diabetes, adjust medications, and counsel patients properly. Great mentorship and structured curriculum.

Dr. Manoj Kumar

The real patient case discussions and treatment planning sessions were extremely useful. I was able to implement what I learned immediately in my practice. Highly recommended for doctors who want specialization in diabetes care.

Dr. Nisha Ray

Course Description

Family Medicine is a comprehensive medical specialty that delivers continuous healthcare to individuals of all ages and genders, addressing a broad spectrum of health conditions. Beyond diagnosis and treatment, it strongly emphasizes preventive care, holistic well-being, and long-term patient management.

The **Online Fellowship in Family Medicine** equips learners with an in-depth understanding of the specialty while strengthening essential clinical skills and practical expertise. The program covers evidence-based practice guidelines, common medical procedures, and effective approaches to managing diverse patient conditions and related complications.

This fellowship is ideal for clinicians aspiring to work at the primary care or grassroots level, where patients first seek medical attention. It prepares doctors to confidently manage initial patient presentations and coordinate with specialists whenever advanced care is required.

Curriculum

Module 1: Medical and Surgical Emergencies

- Recognizing and managing life-threatening conditions (e.g., shock, trauma, cardiac arrest).
- Triage and resuscitation protocols (ABCs, ACLS, ATLS).
- Acute management of poisoning, burns, and surgical emergencies.

Module 2: Adult Medicine

- Diagnosis and management of common adult medical conditions (e.g., hypertension, diabetes).
- Multisystem disorders and chronic disease management.
- Preventive medicine and lifestyle interventions.

Module 3: Child Health

- Growth and development assessment.
- Common pediatric illnesses and immunization schedules.
- Pediatric emergencies and neonatal care basics.

Module 4: Obstetrics and Gynecology

- Antenatal, intrapartum, and postnatal care.
- Management of obstetric emergencies (e.g., PPH, eclampsia).
- Common gynecological disorders and contraception.

Module 5: Infections, Emerging, and Sexually Transmitted Diseases

- Identification and treatment of bacterial, viral, fungal, and parasitic infections.
- Emerging diseases (e.g., COVID-19, Ebola).
- Diagnosis and management of STDs and HIV.

Module 6: Geriatrics

- Common geriatric syndromes (e.g., dementia, falls, polypharmacy).
- Functional assessment and care of the elderly.
- Palliative and end-of-life care.

Module 7: Problems of Eye and ENT

- Common eye conditions (e.g., conjunctivitis, cataract).
- ENT disorders (e.g., otitis media, sinusitis, hearing loss).
- Basic examination and emergency ENT care.

Module 8: Dermatology

- Diagnosis of common skin disorders (e.g., eczema, acne, psoriasis).
- Skin infections and infestations.
- Dermatologic emergencies and lesion identification

Module 9: Psychiatry

- Recognition and management of common mental health disorders.
- Approach to suicidal patients and psychiatric emergencies.
- Basics of psychopharmacology and counseling.

Module 10: Diagnostic Medicine

- Interpretation of basic lab tests, ECGs, and imaging.
- Use of diagnostic tools in clinical decision-making.
- Point-of-care diagnostics and clinical reasoning.

Module 11: Health & Wellness

- Health promotion and disease prevention strategies.
- Nutrition, exercise, and mental well-being.
- Lifestyle medicine and patient education.

Module 12: Sexual Problems and Abuse

- Identification and management of sexual dysfunction.
- Approach to victims of sexual abuse and trauma.
- Legal and ethical aspects of abuse reporting and care.
