

Advance Your Expertise with Our Prestigious Fellowship Program

Fellowship in **Pediatrics**

- › Eminent Faculties
- › Online Mentoring
- › Globally Accredited
- › Blended Learning

About Us

GTR Academy is a leading healthcare education and training institute dedicated to advancing medical excellence through its prestigious Fellowship Programme. We are committed to empowering doctors and healthcare professionals with advanced clinical knowledge, practical skills, and globally relevant competencies required in today's evolving healthcare landscape.

Our Fellowship Programme is thoughtfully designed by experienced clinicians and academic experts to bridge the gap between theoretical learning and real-world medical practice. With a strong focus on evidence-based medicine, hands-on clinical exposure, and patient-centered care, we ensure that our participants gain the confidence and expertise needed to manage diverse clinical situations effectively.

At GTR Academy, we follow a blended learning approach that combines online mentoring, live interactive sessions, and practical training exposure.

Our flexible structure supports working professionals while maintaining high academic standards and professional integrity.

Through our strong collaborations with reputed academic bodies and industry partners, we aim to deliver globally aligned education standards and strengthen healthcare delivery by nurturing competent, skilled, and compassionate medical professionals.

Why Choose GTR Academy?

The Fellowship in Pediatrics offered by GTR Academy is a specialized training program designed for healthcare professionals aiming to gain advanced expertise in pediatric medicine. The program delivers structured academic learning combined with comprehensive clinical exposure across various pediatric subspecialties.

- › Global Recognition and Accreditation
- › Industry-Driven Curriculum
- › Affordable and Flexible Learning
- › Expert Faculty and Mentorship
- › Clinical observer ship with Leading Hospitals
- › Hassle Free Admissions
- › Easy EMI Options Available
- › Career Advancement Opportunities
- › Success Stories and Testimonials

After Completing One Year of the Fellowship

Upon successful completion of the course, learners will be able to:

- Effectively screen, diagnose, and manage common pediatric conditions at an early stage during routine clinical practice.
- Competently manage childhood illnesses to prevent progression, reduce complications, and promote long-term health outcomes.
- Educate and counsel parents on preventive strategies to protect children's health and minimize disease risks.

Key Features

First-Hand Clinical Training

Gain practical exposure in real-world clinical settings through hands-on training at multi-specialty hospitals, enabling direct involvement in frontline patient care.

Hybrid Learning Model

Flexible learning schedules designed for working professionals, with expert-curated resources that comprehensively cover essential clinical knowledge.

Global Recognition

Accredited by organizations such as eIntegrity, CPD, NHS, and more, ensuring international acceptance and credibility.

Expert Medical Faculty

Learn from experienced and accomplished Family Medicine clinicians through interactive and case-based sessions.

What Our Clients Says

"The Fellowship Program completely transformed my professional journey. The mentorship, practical learning, and real-world exposure helped me gain confidence and clarity in my career path."

Dr. Rohan Mehta

"Unlike other programs, this fellowship focuses on real industry skills. The hands-on projects and expert guidance made learning practical and impactful."

Dr. Priya Sharma

"After completing the fellowship, I saw significant growth in my skills and job opportunities. It truly gave my career the boost I was looking for."

Dr. Neha Gupta

"This program not only enhanced my knowledge but also connected me with like-minded professionals. The networking opportunities were incredible."

Dr. Karan Singh

Before joining this program, I was unsure about insulin regimens and complications management. Now I can confidently treat Type 2 diabetes, adjust medications, and counsel patients properly. Great mentorship and structured curriculum.

Dr. Manoj Kumar

The real patient case discussions and treatment planning sessions were extremely useful. I was able to implement what I learned immediately in my practice. Highly recommended for doctors who want specialization in diabetes care.

Dr. Nisha Ray

Course Description

Pediatric care is a specialized branch of medicine dedicated to the health and well-being of infants, children, and adolescents up to 18 years of age. It encompasses preventive healthcare, accurate diagnosis, treatment of acute and chronic illnesses, and the management of developmental and behavioral conditions.

Beyond diagnosing and treating medical conditions, pediatrics also focuses on monitoring a child's emotional and psychological development. Pediatric healthcare professionals play a vital role in guiding parents and caregivers on essential aspects of child health, including nutrition, safety practices, immunization schedules, and developmental milestones.

For medical professionals seeking to grow in the field of child healthcare, a Fellowship in Pediatrics offers an excellent opportunity to advance their careers and make a meaningful impact in pediatric practice. An Online Fellowship in Pediatrics provides comprehensive knowledge in core areas such as immunization, developmental disorders, health screening, early diagnosis, and the management of common and complex childhood illnesses.

Curriculum

Module 1: Introduction of Pediatrics

- Overview of pediatric healthcare focusing on physical, emotional, and developmental needs of children.
- Importance of family-centered care in managing childhood illnesses.

Module 2: Model of Neonatology

- Structure and organization of neonatal intensive care units (NICUs).
- Key principles in the care of premature and critically ill newborns.

Module 3: Infections in Infant

- Common infectious diseases affecting infants and their typical presentations.
- Strategies for prevention and early diagnosis of neonatal infections.

Module 4: Genetic Disorder in Infant

- Basics of common genetic disorders presenting in infancy such as Down syndrome and cystic fibrosis.
- Role of genetic counseling and early intervention.

Module 5: Childhood Disorders

- Overview of developmental and behavioral disorders in children.
- Importance of early identification and multidisciplinary management.

Module 6: Specialities

- Introduction to pediatric subspecialties (e.g., pediatric cardiology, neurology).
- Role of specialized care in complex pediatric conditions.

Module 7: Care of Children and Young People: Neonates and Infants

- Principles of developmental care for neonates and infants.
- Importance of nutrition and bonding in early life stages.

Module 8: Care of Children and Young People: Children

- Approaches to managing acute and chronic illnesses in children.
- Emphasis on psychological support and communication with school-aged children.

Module 9: Care of Children and Young People: Healthy Child

- Routine health monitoring and immunizations.
- Promotion of healthy lifestyle and growth tracking.

Module 10: Care of Children and Young People: Healthy Child-2

- Screening programs and early detection of health issues.
- Preventive healthcare and parental education.

Module 11: Care of Children and Young People: Safeguarding

- Identification and management of child abuse and neglect.
- Legal and ethical responsibilities in child protection.

Module 12: Pain in Children

- Assessment tools and challenges in evaluating pediatric pain.
- Pharmacological and non-pharmacological pain management strategies.

Module 13: Growth and Nutrition

- Monitoring growth parameters and nutritional assessment.
- Nutritional requirements and management of malnutrition.

Module 14: Cardiovascular Examination

- Techniques for pediatric cardiovascular assessment.
- Recognizing common congenital and acquired heart conditions.

Module 15: Paediatric Anaesthesia

- Principles of anesthesia tailored for children.
- Safety considerations and common complications.

Module 16: Ultrasound for Paediatric Clinicians

- Applications of ultrasound in pediatric diagnosis.
- Basic sonographic techniques for common pediatric conditions.

Module 17: Paediatric Skeleton Multiple Choice Quizzes

- Evaluation of knowledge on pediatric bone anatomy and pathology.
- Practice questions to enhance understanding of skeletal disorders.

Who is eligible to apply for this fellowship in Pediatrics ?

The program is typically open to:

- ✓ MBBS Graduates.
- ✓ MBBS Final Years Student
- ✓ Applicants who are in their final year can also apply.
- ✓ MD/DNB/FNB & residents working in healthcare.
- ✓ BAMS / BHMS / Ayush / BYNS /BUMS
